

Login bugs (functional)

#1

Title: Username fields shows an error after entering correct username.

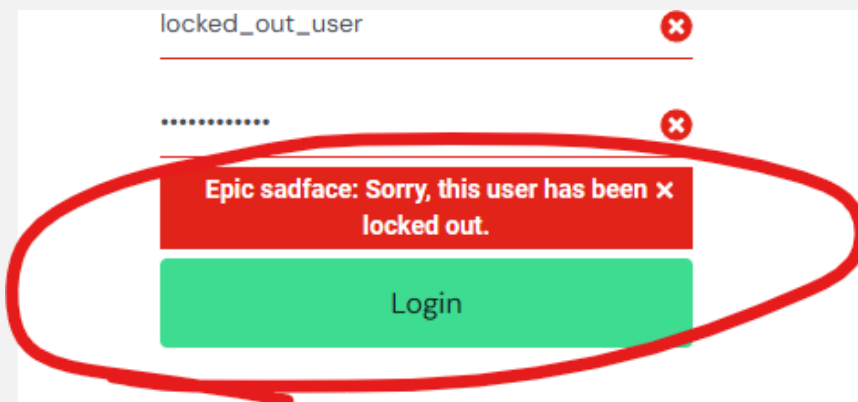

Steps:

- 1) open <https://www.saucedemo.com>.
- 2) enter "locked_out_user" at username field.
- 3) click login.

Description:

Entering a valid username value inside the username field to check if it will accept the value normally

Attachment:

Result:

Expected Result: Login button changes its style upon mouse hover.

Actual Result: Login button stays the same.

Severity: High

Priority: High

Login bugs (UI)

#1

Title: No Login button effect indicator.

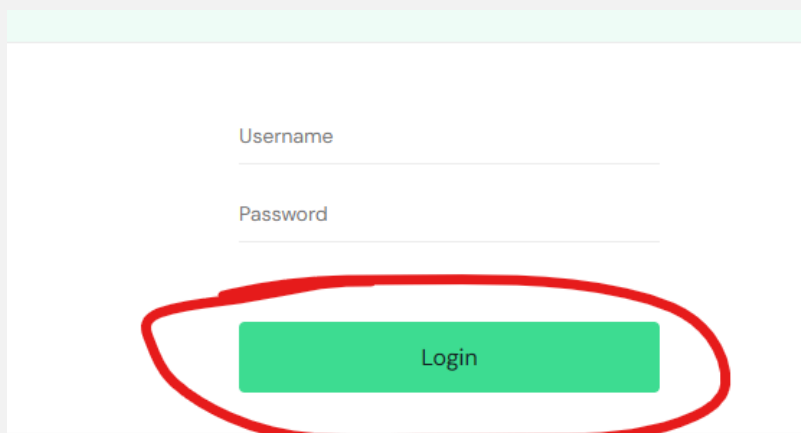

Steps:

- 1) open <https://www.saucedemo.com>
- 2) hover mouse over login button

Description:

Hovering the mouse over the login button should have an effect or change color/ appearance to show that it's responsive.

Attachment:

Result:

Expected Result: Login button changes its style upon mouse hover.

Actual Result: Login button stays the same.

Severity: Low

Priority: Low

Product gallery & sorting

1#

Title: Product images field displays a single incorrect photo (Same wrong image shown for all products)

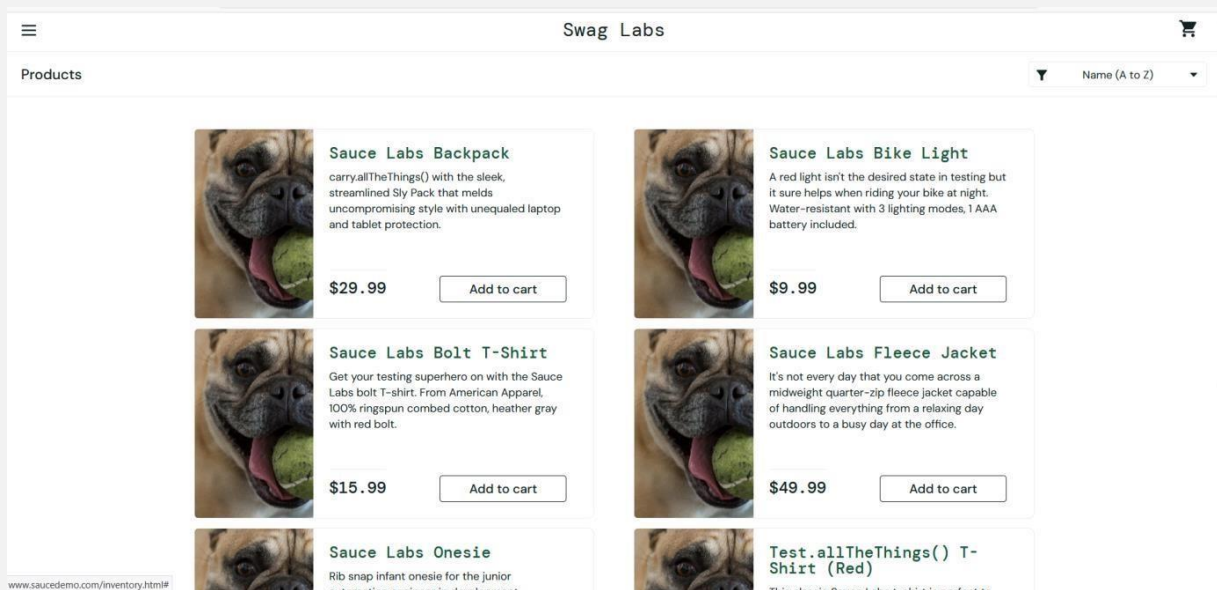

Steps:

- 1) Go to <https://www.saucedemo.com>
- 2) Login to the website
- 3) Look at the product images on the home page
- 4) Observe that all products display the same incorrect image

Description:

The product images field fails to display the unique and correct images for each item. Instead, the system shows a single, duplicated, and incorrect image across all products on the inventory page, which is a visual and functional mismatch

Screenshot /Attachment

Result:

Expected Result: Each product should display its own unique and correct image that matches its name.

Actual Result: All products display the same duplicated and incorrect image

Severity: High

Priority: High

#2

Title: Product price field shows inconsistent values (Mismatch between inventory and details page)

Steps:

- 1) Go to <https://www.saucedemo.com>
- 2) Login to the website
- 3) Observe the price of "Sauce Labs Backpack" on the inventory page (it is \$29.99)
- 4) Click on the "Sauce Labs Backpack" title to open its details
- 5) Observe the price on the product details page

Description:

The price of the product is inconsistent across the website. While the inventory page displays a price of \$29.99, the product details page shows a different price of \$49.99. This mismatch creates confusion for the user regarding the actual cost.

Screenshot /Attachment

Sauce Labs Fleece Jacket

It's not every day that you come across a midweight quarter-zip fleece jacket capable of handling everything from a relaxing day outdoors to a busy day at the office.

\$49.99

Add to cart

Severity: High

Priority: High

3#

Title: "Add to Cart" button is unresponsive (Button fails to add items or change state)

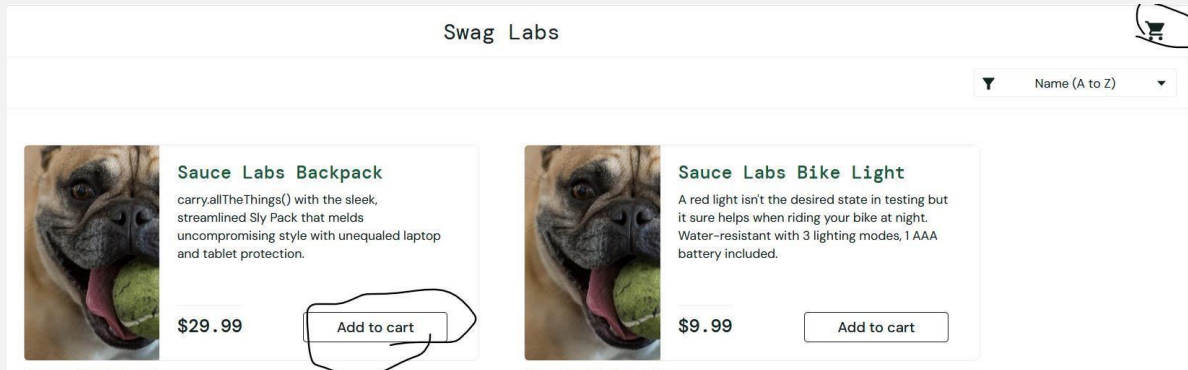

Steps:

- 1) Go to <https://www.saucedemo.com>
- 2) Login to the website
- 3) Click the "Add to Cart" button for any product
- 4) Observe the button and the cart icon at the top

Description:

The "Add to Cart" button is unstable. Sometimes it works correctly and adds the item to the cart, but at other times, it becomes unresponsive and fails to change its state or update the cart, even after multiple clicks.

Screenshot /Attachment

Expected Result: The item should be removed from the cart list immediately, and the cart icon badge should update

Actual Result : The item remains in the cart, and the "Remove" button does not trigger any action

Severity: Medium

Priority: High

4#

Title: "Remove" button in the cart is unstable (Works intermittently and fails to delete items at times)

Steps:

- 1) Go to <https://www.saucedemo.com>
- 2) Login and add items to the cart
- 3) Open the Cart Page
- 4) Click the "Remove" button several times to test its responsiveness
- 5) Observe if the product is removed every time or if it stays

Description:

The "Remove" button is not stable. Sometimes when you click it, the item is deleted correctly. However, at other times, the button does not work at all, and the product stays in the cart no matter how many times you click

Screenshot /Attachment

Screen Recording 2026-04-19 215600.mp4

Expected Result: The item should be removed from the cart every time I click the button

Actual Result: The button is unstable; it works sometimes and fails at other times

Severity: Medium

Priority: High

5#

Title: Product "Add to Cart" and "Remove" buttons are not aligned properly in the catalog.

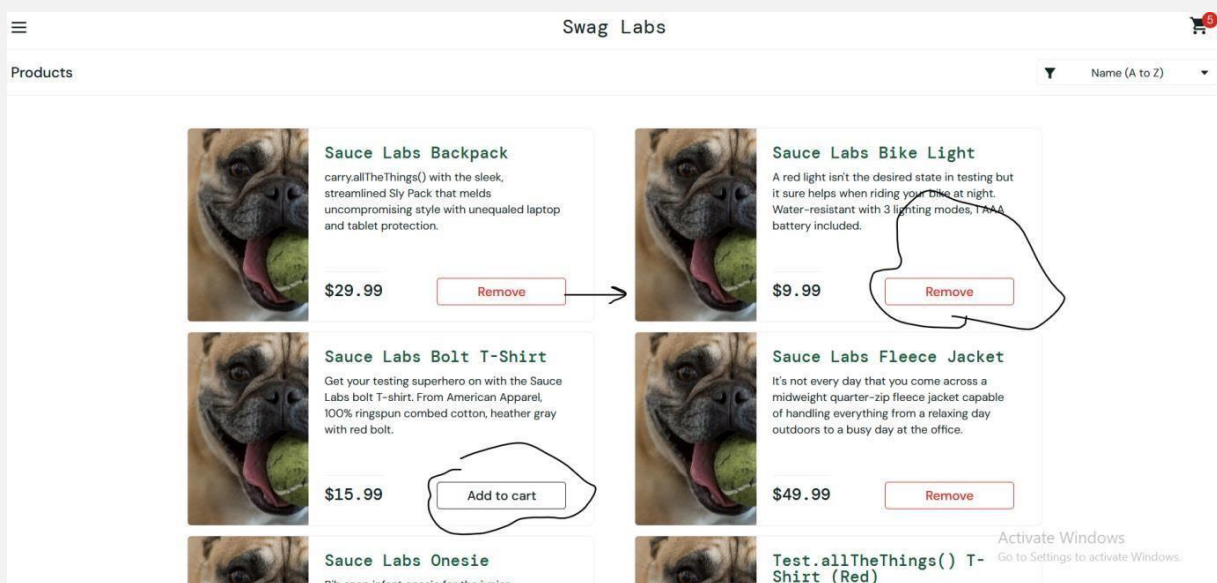

Steps:

- 1) Open the website: <https://www.saucedemo.com>
- 2) Login as a problem_user
- 3) Observe the product list on the main page
- 4) Compare the horizontal position of the buttons (Add to Cart / Remove) for different products

Description:

The page layout is messy. The buttons on the product cards are not at the same level (misaligned). As shown in the screenshots, some buttons are higher or lower than others, and they are not on the same horizontal line. This makes the website look unorganized

Screenshot /Attachment

Expected Result:

All product buttons should be perfectly aligned on the same horizontal line to keep the layout organized and professional

Actual Result:

The buttons are at different levels and heights across the product list

Severity: Low

Priority: Medium

6#

Title: Footer icons and copyright text are shifted to the far left

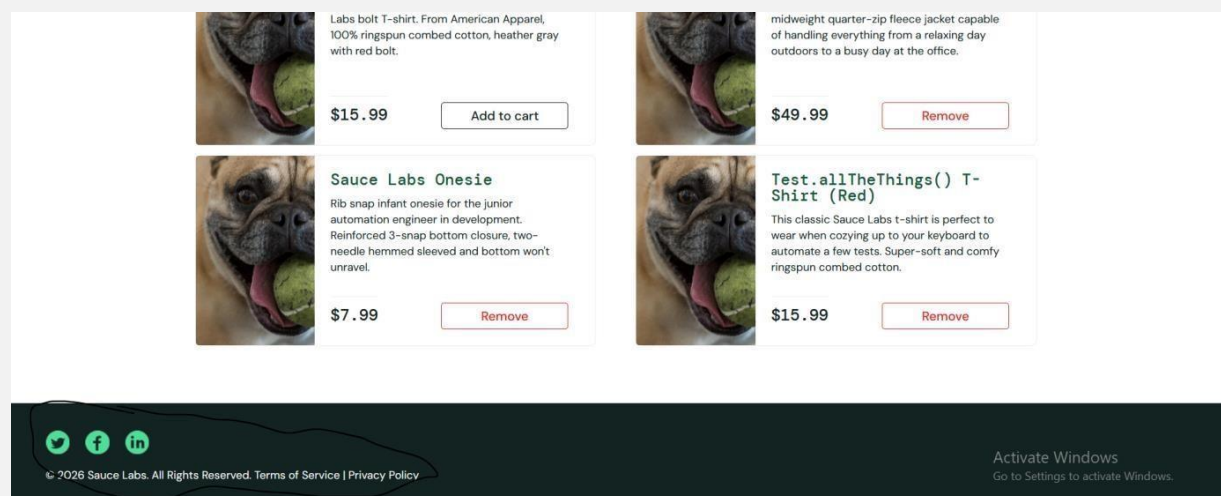

Steps:

- 1) Open the <https://www.saucedemo.com>
- 2) Login as a `problem_user`
- 3) Scroll down to the bottom of the page (Footer)
- 4) Look at the Social Media icons (Twitter, Facebook, LinkedIn) and the copyright text

Description:

The footer content is not centered or properly aligned. The social media icons (Twitter, Facebook, Linked In) and the copyright text are shifted to the far left side of the page. This makes the footer layout look unorganized and unbalanced.

Screenshot /Attachment

Expected Result:

The footer content should be centered or have consistent padding from the edges of the screen

Actual result: All footer elements are stuck to the left edge, leaving empty space on the right

Severity: Low

Priority: Low

7#

.Title: Product details page shows incorrect information for the selected item

Steps:

- 1) Open the website: <https://www.saucedemo.com>**
- 2) Login as a problem_user**
- 3) Click on any product name or image (e.g., click on "Sauce Labs Backpack")**
- 4) Observe the product name, description, and price on the details page**

Description:

There is a data mismatch on the product details page. After clicking on a specific product, the details page shows a different name, price, or image that does not match the item I selected. This is confusing for the user

Screenshot /Attachment

Screen Recording 2026-04-20 181536.mp4

Expected result:

The details page should display the correct name, price, and description for the selected product.

Actual Result:

The details page shows incorrect data that belongs to a different product

Severity: High

Priority: High

8#

Title: Product sorting (Dropdown) does not work and does not change the items order

Steps

- 1) Open the website: <https://www.saucedemo.com>
- 2) Login as a problem_user
- 3) Go to the product page
- 4) Select any option (e.g., Price: Low to High)

Description:

The sorting feature is completely broken. When the user selects a sorting option from the dropdown menu, the products stay in the same order and do not change. The website ignores the user's selection

Screenshot /Attachment

20260420-1935-47.0114006.mp4

Expected result:

the products should be re-ordered correctly based on the selected sorting option (Price or Name)

Actual result:

The product list remains unchanged regardless of the selected

Severity: Medium

Priority: Medium

9#

Title: Side menu navigation links (About, Logout, Reset) are not working properly

Steps:

- 1) Open the website: <https://www.saucedemo.com>
- 2) Login as a problem_user
- 3) Open the Side Menu
- 4) Try clicking on "About", then try "Logout", and "Reset App State"

Description:

None of the links in the side menu are working. For example, the "About" link leads to an error page, and other links do not perform their intended actions. This makes it impossible for the user to navigate or logout

Screenshot /Attachment

20260420-1950-24.1012002.mp4

Expected Result:

Every link in the side menu should work correctly and take the user to the right page or perform the right action

Actual result

All side menu links are broken or redirect to the wrong pages

Severity :High

Priority: High

Shopping cart management (functional)

#1

Title: 'Add to cart' button does not work for some products when signed in with problem_user

Steps:

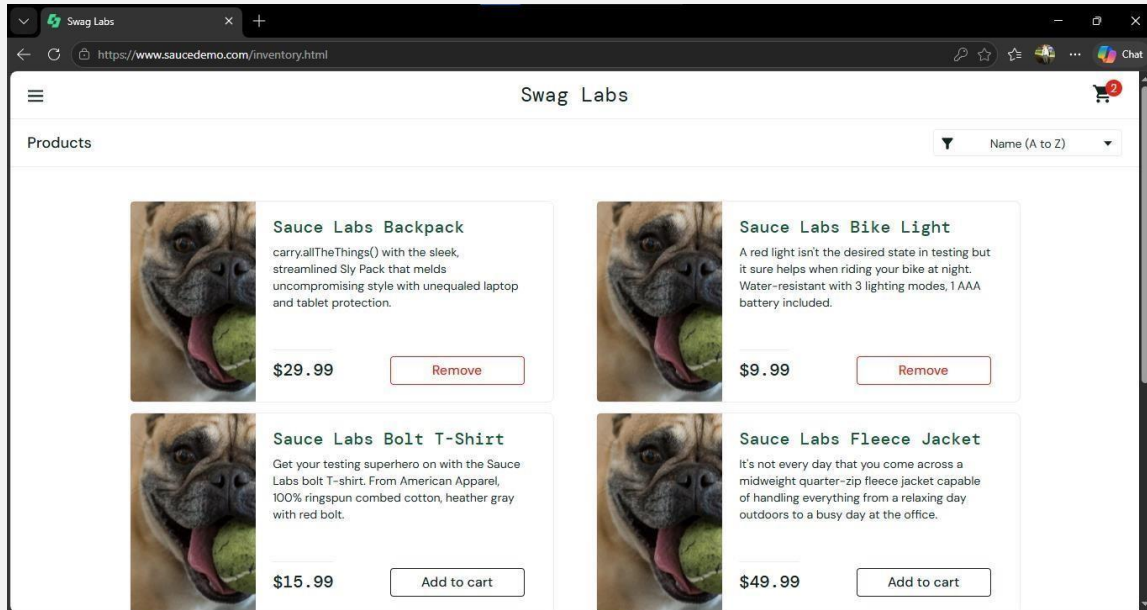

- 1) Open <https://www.saucedemo.com>
- 2) Login with problem_user / secret_sauce
- 3) On /inventory.html locate any product
- 4) Click the 'Add to cart' button
- 5) Observe the button label and cart badge

Description:

When I logged in with problem_user and tried to add a product to the cart from the inventory page, the 'Add to cart' button did not change to 'Remove'

for some products and the cart badge did not update. The issue is inconsistent across products.

Screenshot / Attachments:

Expected Result: The button should change to 'Remove' immediately and the cart badge should increment by 1.

Actual Result: For some products the button stays as 'Add to cart' and the badge does not update. The item is not added to the cart.

Severity: High

Priority: High

#2

Title: Not all products can be added to the cart when signed in with problem_user

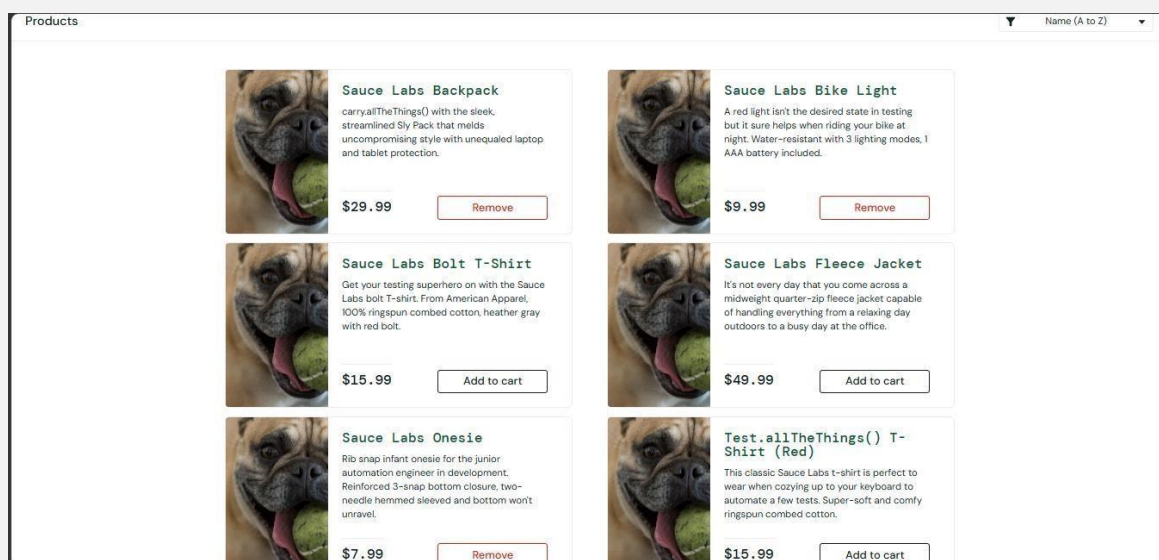

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with `problem_user` / `secret_sauce`
- 3) On `/inventory.html` click 'Add to cart' on every product one by one
- 4) Observe the buttons and cart badge after each click

Description:

When logged in with `problem_user` and trying to add all 6 products to the cart, some products fail to be added. The 'Add to cart' button does not change to 'Remove' for those products and the badge count does not reflect the correct number.

Screenshot / Attachments:

Expected Result: All 6 'Add to cart' buttons should change to 'Remove' and badge should show 6.

Actual Result: Only some products get added. Others stay unchanged. Cart badge shows wrong count.

Severity: High

Priority: High

#3

Title: 'Add to cart' button on product details page does not work with problem_user

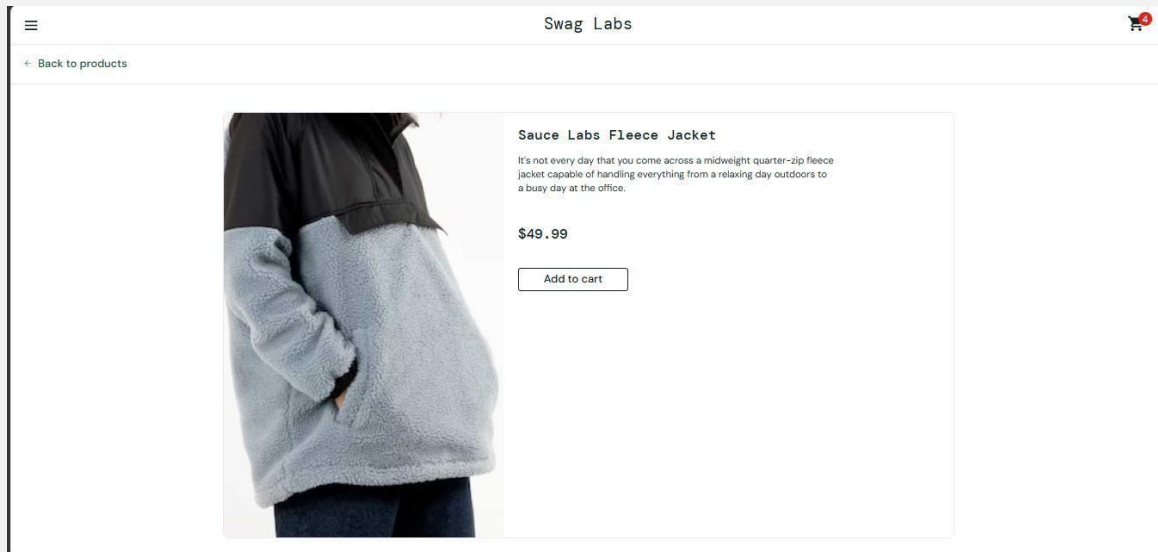

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with problem_user / secret_sauce
- 3) On /inventory.html click on any product name or image
- 4) On the product details page click 'Add to cart'
- 5) Observe the button label and cart badge

Description:

When logged in with problem_user and navigating to a product details page, clicking the 'Add to cart' button does not work as expected. The button label does not change and the cart badge does not update.

Screenshot / Attachments:

Expected Result: Button should change to 'Remove' and cart badge should increment by 1.

Actual Result: Button stays as 'Add to cart' and cart badge does not update. Product is not added to cart.

Severity: High

Priority: High

#4

Title: Wrong product images displayed on inventory and details page with problem_user

Steps:

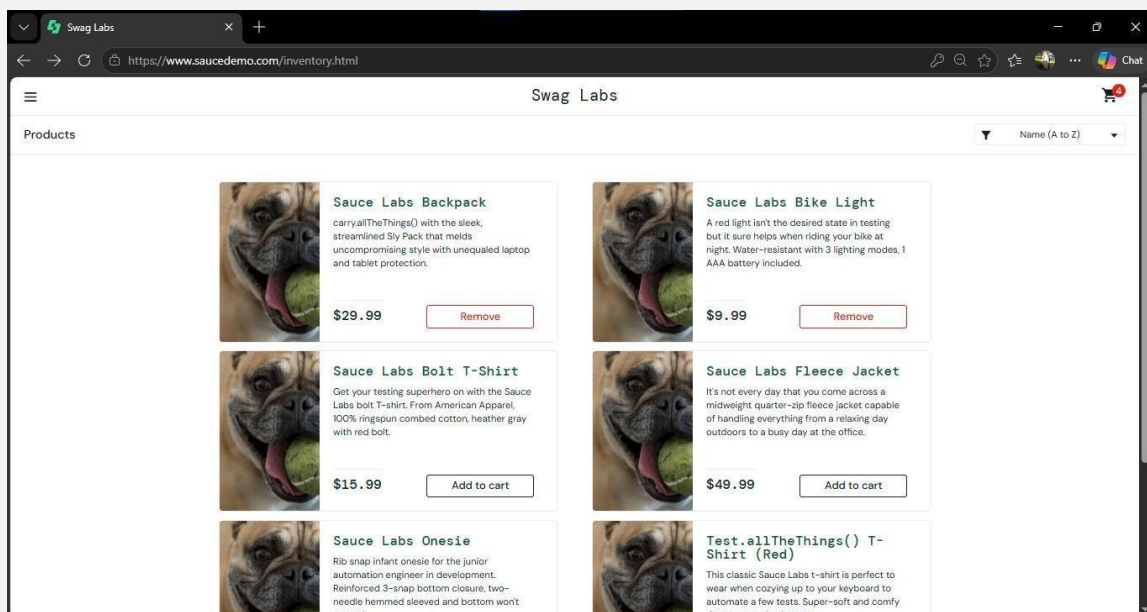

- 1) Open <https://www.saucedemo.com>
- 2) Login with problem_user / secret_sauce

- 3) On /inventory.html observe the product images
- 4) Click on any product to open the details page
- 5) Compare the image shown with the product name

Description:

When logged in with problem_user, the product images shown on the inventory page do not match the actual products. A dog image appears instead of the correct product image. This also affects the product details page. Title, price and description do not match the image shown.

Screenshot / Attachments:

Expected Result: Each product should show its correct image matching the product name and description.

Actual Result: Wrong images are displayed. A placeholder dog image appears for products instead of the correct product image.

Severity: High

Priority: High

#5

Title: Cart badge shows incorrect item count with problem_user

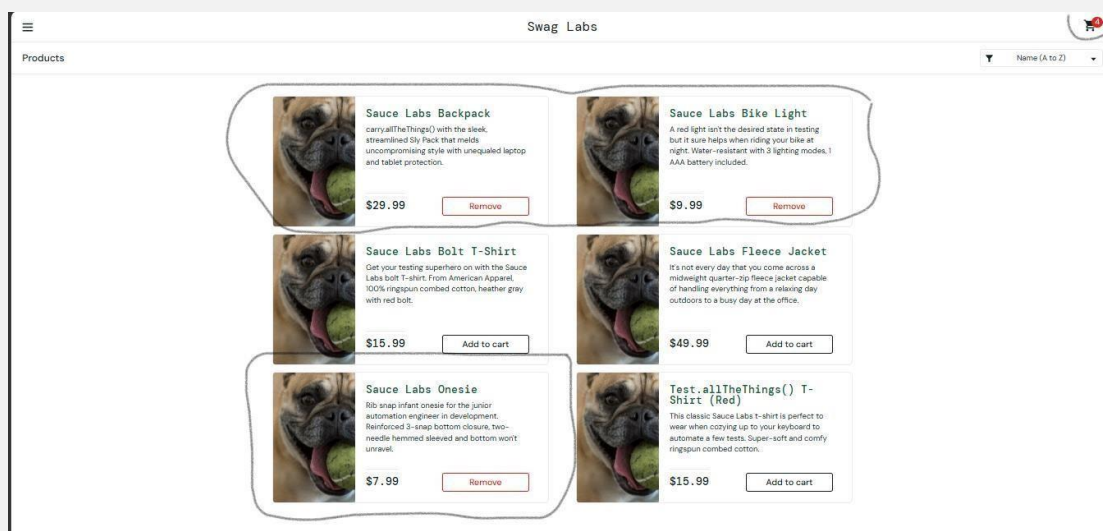

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with problem_user / secret_sauce
- 3) On /inventory.html add 2 or 3 products to the cart
- 4) Observe the cart badge number on the cart icon
- 5) Compare the badge number with the actual number of items added

Description:

When I logged in with problem_user and added multiple products to the cart, I noticed the cart badge number does not match the actual number of items added. For example, I added 3 products but the badge showed a different number. This does not happen with standard_user.

Screenshot / Attachments:

Expected Result: Cart badge should always show the correct number of items currently in the cart.

Actual Result: Cart badge shows wrong number. The count displayed does not match the actual number of items added to the cart.

Severity: High

Priority: High

#6

Title: Cart page shows blank white screen or no data when opened with problem_user

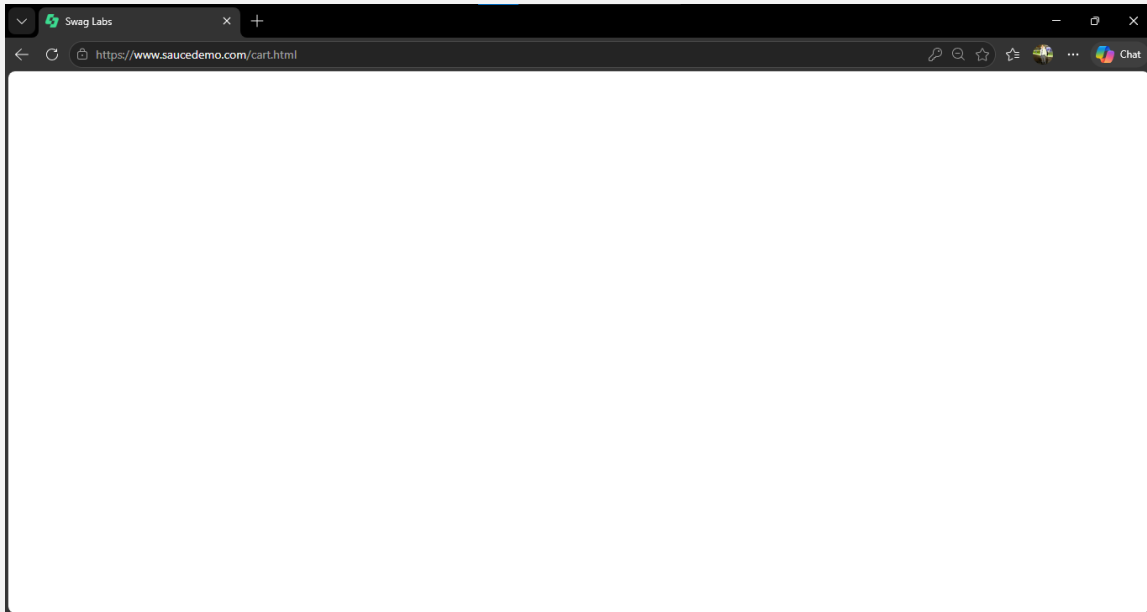

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with problem_user / secret_sauce
- 3) Add any product to the cart
- 4) Click on the cart icon to open /cart.html
- 5) Observe the page content

Description:

When I logged in with problem_user and tried to open the cart page, the page loaded as a completely blank white screen with no data. No items, no buttons, nothing was displayed. When I tried to go back and reopen the cart, the same issue happened again. The only way to recover was to fully exit the website and login again. This is a critical bug that makes the cart completely unusable for problem_user.

Screenshot / Attachments:

Expected Result: Cart page should load correctly and display all added items with their details, and show the Continue Shopping and Checkout buttons.

Actual Result: Cart page opens as a blank white screen with no content. No items, no 'Continue Shopping' button and no 'Checkout' button appear. Going back and reopening the cart does not fix the issue. A full page reload or re-login is required to recover.

Severity: Critical

Priority: High

Title: 'Add to cart' button does not work correctly when signed in with error_user

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with error_user / secret_sauce
- 3) On /inventory.html click 'Add to cart' on any product
- 4) Observe if button changes to 'Remove' and badge updates

Description:

When logged in with error_user, clicking the 'Add to cart' button does not work as expected. The button does not change to 'Remove' or an error message appears. The cart badge does not reflect the correct count.

Screenshot / Attachments:

Expected Result: Button should change to 'Remove' immediately. Badge should increment by 1 without any error.

Actual Result: Button does not change to 'Remove'. Badge does not update. An error may appear or the action is silently ignored.

Severity: High

Priority: High

#8

Title: Remove button on cart page does not work correctly with error_user

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with error_user / secret_sauce
- 3) Add a product to cart
- 4) Open /cart.html
- 5) Click 'Remove' next to the item

Description:

When logged in with error_user and trying to remove an item from the cart page, clicking the 'Remove' button does not work as expected. The item may remain in the cart or an error is displayed.

Screenshot / Attachments:

Swag Labs -
Personal - Microsoft

Expected Result: Item should be removed from the cart immediately. Badge should decrement and item list should update.

Actual Result: Item is not removed after clicking Remove. Cart still shows the item or an error message appears.

Severity: High

Priority: High

#9

Title: Checkout process fails when signed in with error_user

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with error_user / secret_sauce
- 3) Add any product to cart
- 4) Open /cart.html
- 5) Click the 'Checkout' button

Description:

When logged in with error_user, clicking the Checkout button on the cart page does not navigate to checkout-step-one.html. An error message appears or the page does not respond to the click.

Screenshot / Attachments:

Swag Labs -
Personal - Microsoft

Expected Result: User should be redirected to /checkout-step-one.html without any error after clicking Checkout.

Actual Result: User is not redirected to checkout-step-one.html. An error message is displayed or nothing happens.

Severity: High

Priority: High

#10

Title: Product price on inventory page is inconsistent and changes with visual_user

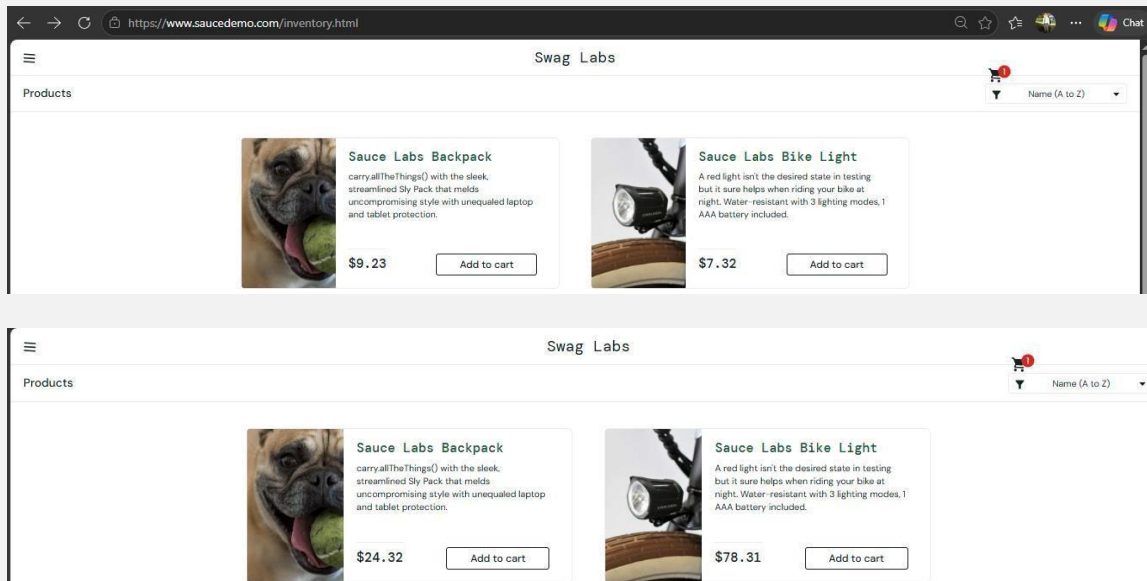

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with visual_user / secret_sauce
- 3) Note the price shown for any product on /inventory.html
- 4) Navigate away from the page (go to cart or any other page)
- 5) Come back to /inventory.html
- 6) Check the same product price again
- 7) Repeat 2-3 times

Description:

When logged in with visual_user, the product prices on the inventory page change inconsistently. After navigating to another page and returning to the inventory, the price of the same item is no longer the same as it was initially.

Screenshot / Attachments:

Expected Result: Product price on inventory page should be consistent and not change during navigation

Actual Result: The price changes after navigating away and returning to the page.

Severity: High

Priority: High

#11

Title: Product price on inventory page does not match the price on product details page with visual_user

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with visual_user / secret_sauce
- 3) Note the price shown for any product on /inventory.html

4) Click on the same product to open its details page

5) Compare the price on the details page with the price noted on inventory page

Description:

There is a pricing discrepancy when using visual_user. The price shown for a product on the main inventory list is different from the price displayed on its specific product details page.

Screenshot / Attachments:

Sauce Labs Bike Light

A red light isn't the desired state in testing but it is riding your bike at night. Water-resistant with 3 light battery included.

\$9.99

Add to cart

Expected Result: The price shown on the inventory page should be exactly the same as the price shown on the product details page.

Actual Result: Prices are inconsistent between the two pages. to the page.

Severity: High

Priority: High

Shopping cart management (UI)

#1

Title: Wrong product images displayed on inventory page with problem_user

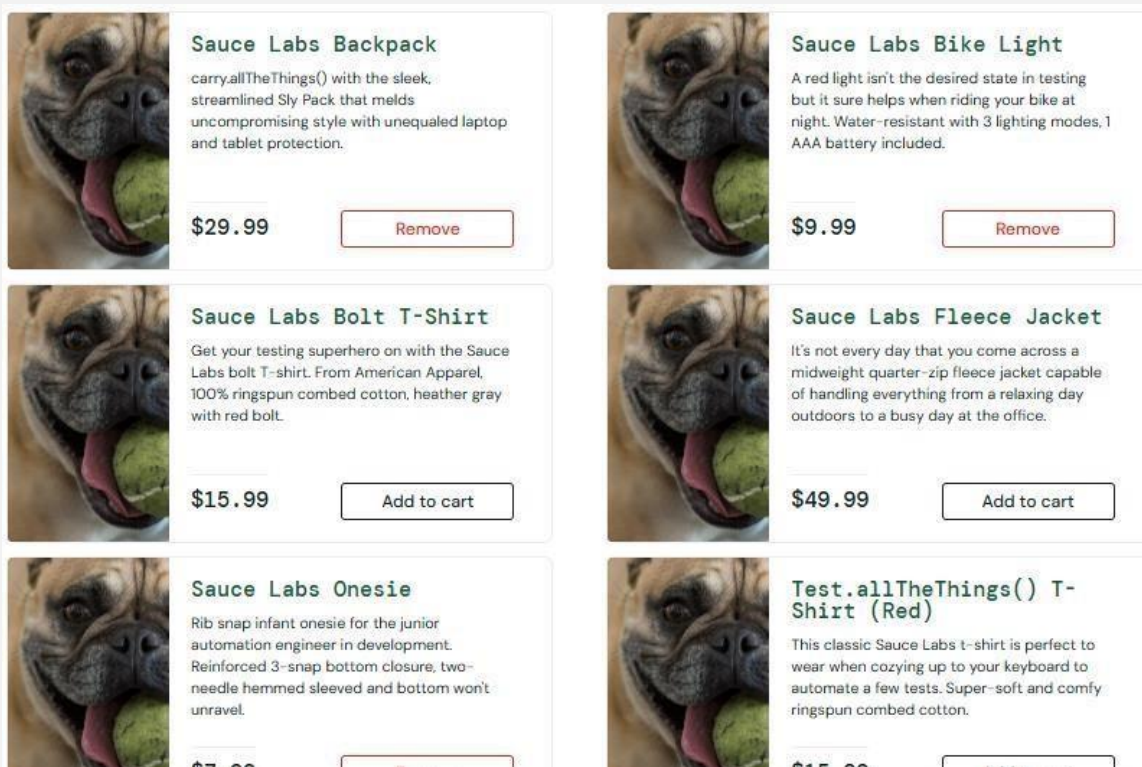

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with problem_user / secret_sauce
- 3) On /inventory.html observe all product images
- 4) Compare each image with the product name next to it

Description:

When I logged in with problem_user and opened the inventory page, the product images shown did not match the products. A dog image appeared instead of the correct product image for all products. This is clearly a visual bug specific to problem_user.

Screenshot / Attachments:

Expected Result: Each product should show its own correct image that matches the product name.

Actual Result: All product cards show the same wrong dog image instead of the correct product image.

Severity: High

Priority: Medium

#2

Title: Wrong or broken product image shown on cart page with problem_user

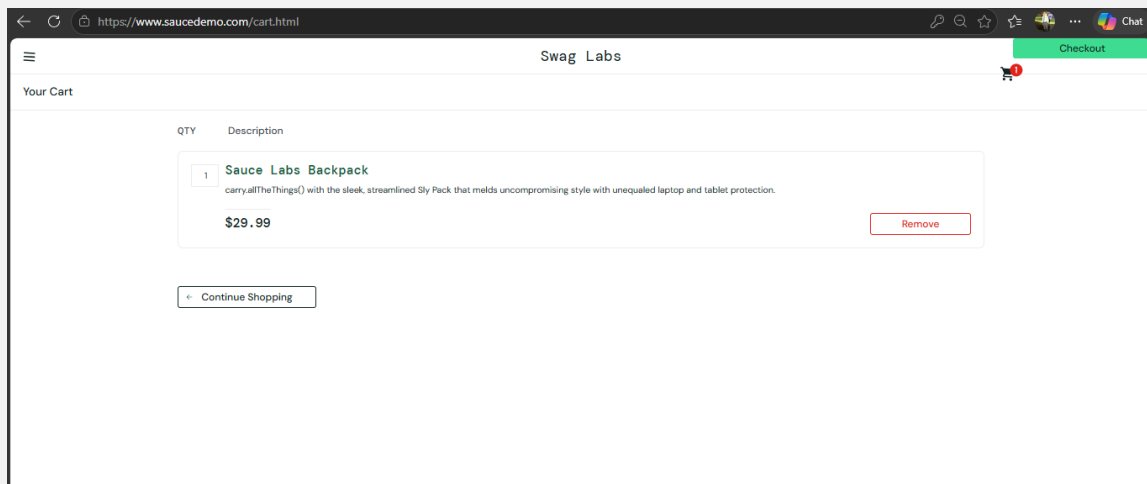

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with `problem_user` / `secret_sauce`
- 3) Add any product to cart
- 4) Open `/cart.html`
- 5) Observe the product image shown in the cart

Description:

When logged in with `problem_user` and adding a product to the cart, the image shown on the cart page does not match the product. The wrong image (dog placeholder) appears instead of the actual product image.

Screenshot / Attachments:

Expected Result: Product image in cart should match the actual product that was added.

Actual Result: Cart page shows a wrong dog image for the added product instead of the correct product image.

Severity: High

Priority: Medium

#3

Title: 'Add to cart' button label is wrong or missing on some products with problem_user

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with problem_user / secret_sauce
- 3) On /inventory.html observe all product cards
- 4) Check the button label on each product card

Description:

When logged in with problem_user, some product cards on the inventory page show incorrect button labels. Some buttons do not display 'Add to cart' correctly or appear in the wrong state.

Screenshot / Attachments:

Expected Result: All product cards should show 'Add to cart' button label correctly on a fresh login.

Actual Result: Some product buttons show incorrect labels or appear already in 'Remove' state without the user adding them.

Severity: Medium

Priority: Medium

#4

Title: Product names do not match the displayed images on inventory page with problem_user

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with problem_user / secret_sauce
- 3) On /inventory.html read each product name
- 4) Compare each name with the image shown on the same card

Description:

When logged in with problem_user, the product names shown on the inventory page do not match the images displayed. For example, the Sauce Labs Backpack card shows a dog image instead of a backpack. The mismatch affects all product cards.

Screenshot / Attachments:

Swag Labs -
Personal - Microsoft

Expected Result: Each product name should match its corresponding image on the product card.

Actual Result: Product names and images do not match. All cards show the same dog image regardless of the product name.

Severity: High

Priority: Medium

#5

Title: Cart page has broken layout and wrong content when signed in with problem_user

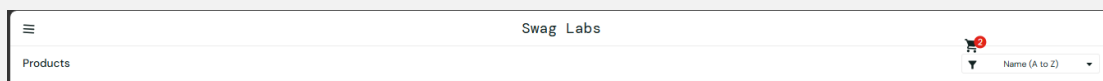

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with problem_user / secret_sauce
- 3) Add any item to cart
- 4) Open /cart.html
- 5) Check the overall layout, images and text content

Description:

When logged in with problem_user and viewing the cart page, the layout appears broken. The product image shown is wrong, and the overall display does not match what is seen with standard_user. Some text or elements may be misaligned or missing.

Screenshot / Attachments:

Expected Result: Cart page should display correctly with the right product image, correct text and a clean layout.

Actual Result: Cart page shows wrong product image. Layout elements appear broken or misaligned compared to standard_user.

Severity: High

Priority: Medium

#6

Title: Product images display incorrectly on inventory page with visual_user

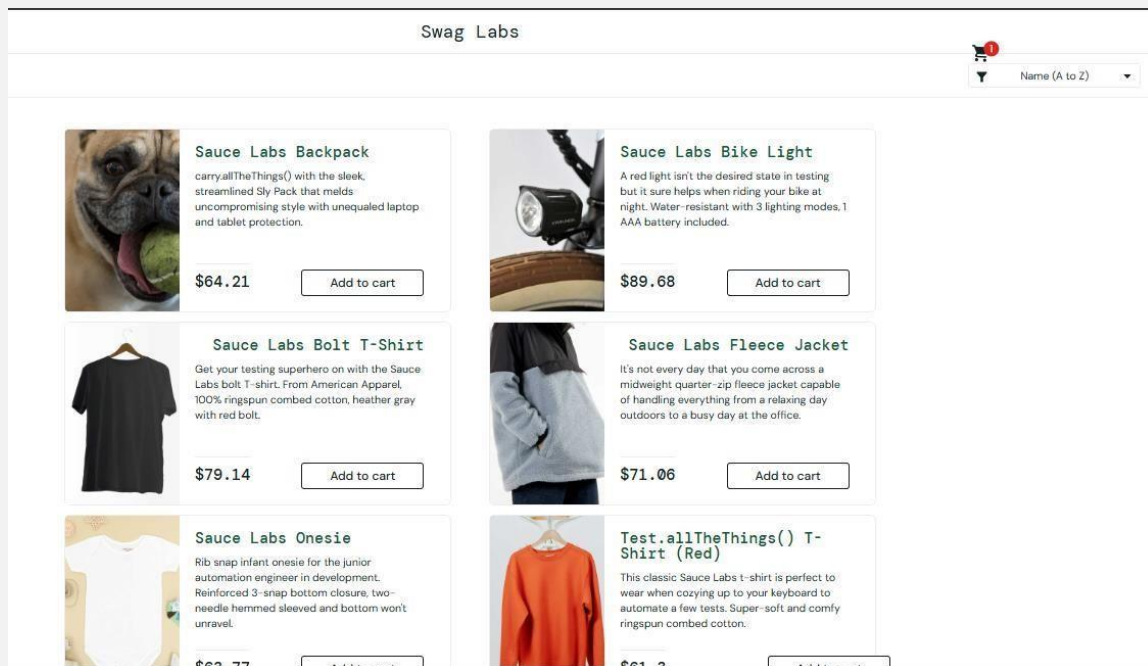

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with visual_user / secret_sauce
- 3) On /inventory.html observe all product images
- 4) Compare the view with standard_user view

Description:

When logged in with visual_user, the product images on the inventory page look different from what standard_user sees. Some images are misaligned, wrong size, or show a different image than expected. This is a visual-only bug specific to visual_user.

Screenshot / Attachments:

Expected Result: All product images should look identical to what standard_user sees. No visual differences.

Actual Result: Product images appear with visual inconsistencies. Some images look different in size, alignment or content compared to standard_user.

Severity: Medium

Priority: Medium

#7

Title: 'Add to cart' button styling is inconsistent on inventory page with visual_user

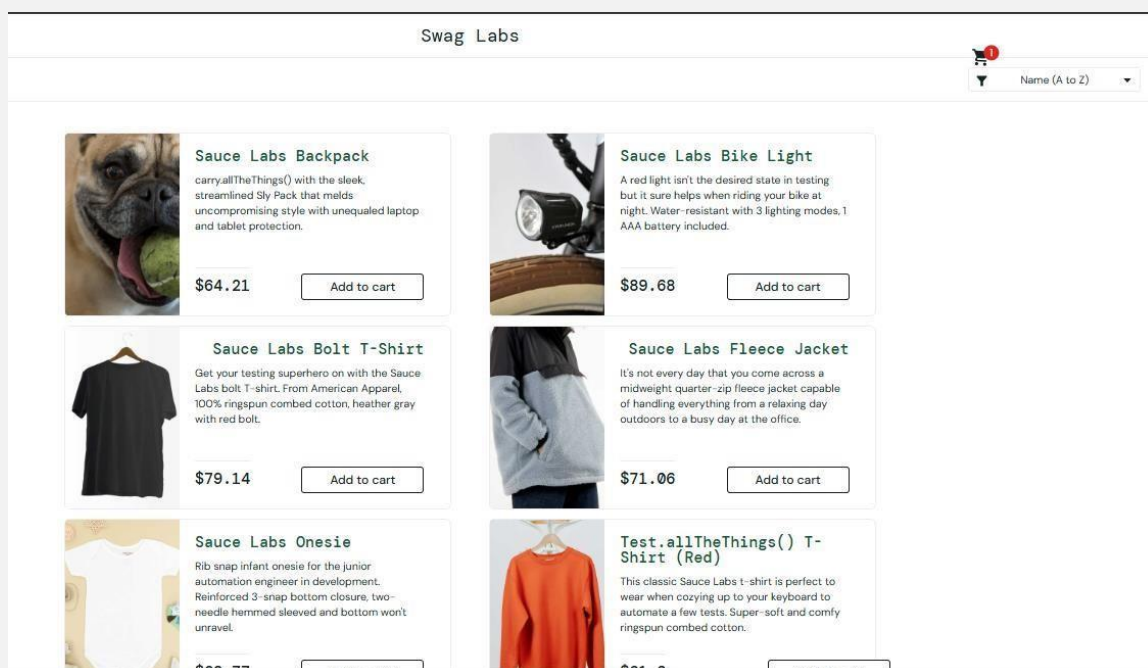

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with visual_user / secret_sauce
- 3) On /inventory.html observe the 'Add to cart' buttons
- 4) Compare the button style, color and size with standard_user view

Description:

When logged in with visual_user, the 'Add to cart' buttons on the inventory page do not look the same as they do with standard_user. There are visual differences in the button styling such as color, padding or alignment.

Screenshot / Attachments:

Expected Result: All 'Add to cart' buttons should have the same style as standard_user. No visual differences.

Actual Result: Buttons appear with different styling compared to standard_user. Visual inconsistencies in color or size are visible.

Severity: Medium

Priority: Medium

#8

Title: Cart page UI looks different with visual_user compared to standard_user

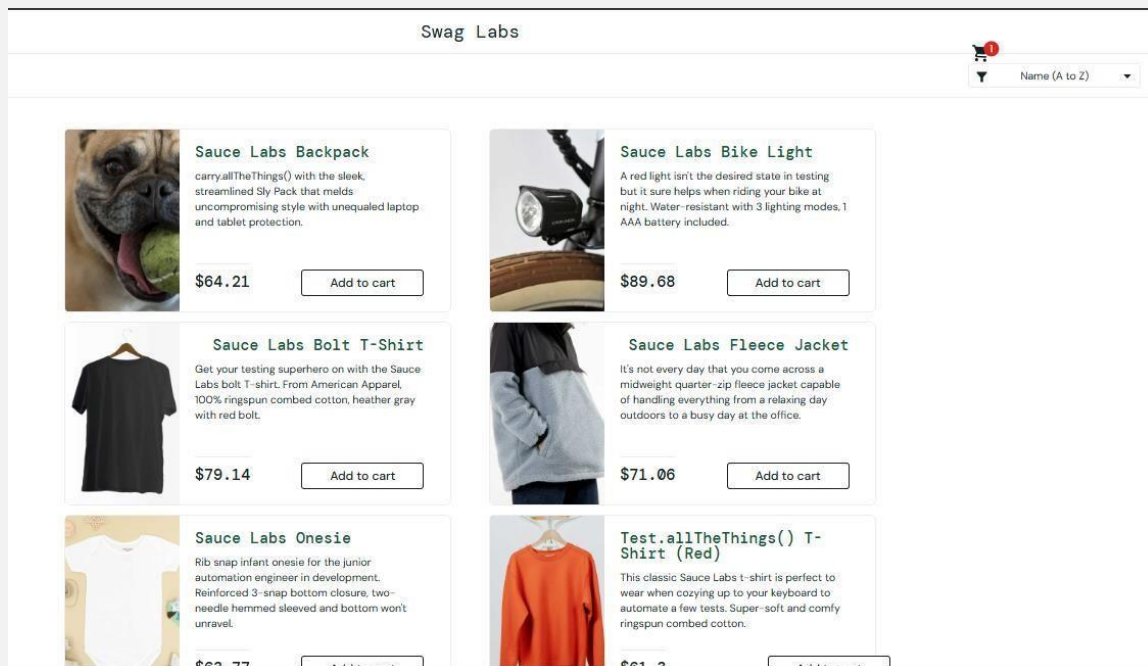

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with visual_user / secret_sauce
- 3) Add any product to cart
- 4) Open /cart.html
- 5) Compare the layout, fonts, colors and spacing with standard_user view

Description:

When logged in with visual_user and opening the cart page, the page looks visually different from standard_user. There are differences in fonts, colors, spacing or overall layout that should not exist since both users should see the same UI.

Screenshot / Attachments:

Expected Result: Cart page should look identical for all users. No visual differences from standard_user view.

Actual Result: Cart page shows visual glitches. Layout, fonts or colors differ from what standard_user sees.

Severity: Medium

Priority: Medium

#9

Title: Header on cart page looks incorrect when signed in with visual_user

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with visual_user / secret_sauce

3) Open /cart.html

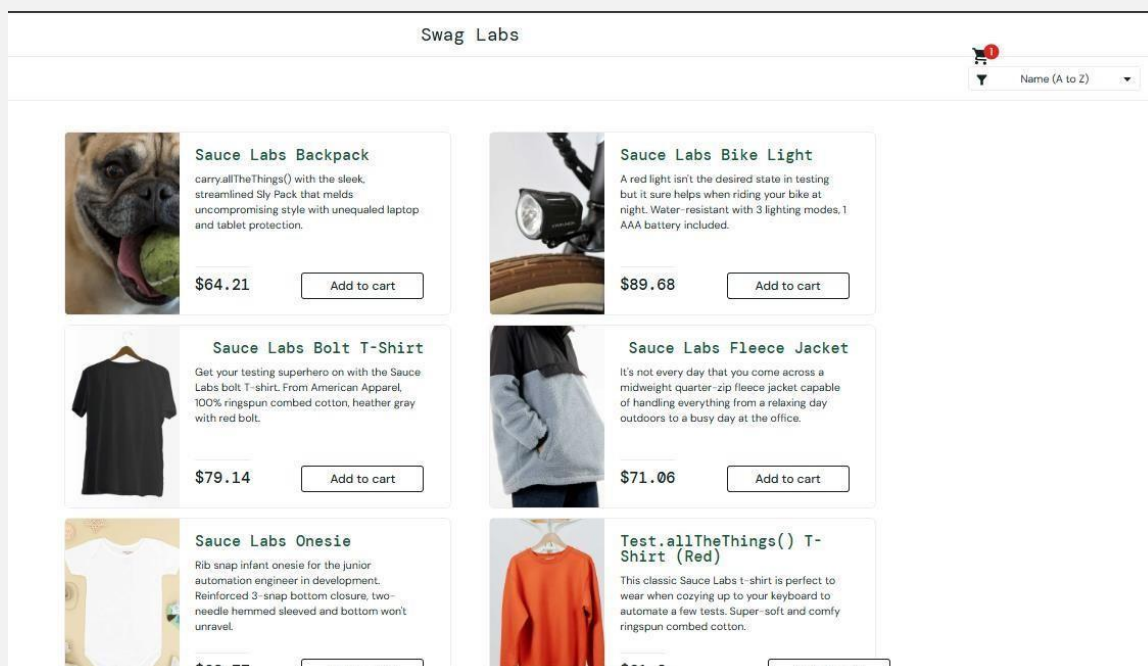

4) Observe the header area including logo, cart icon and hamburger menu

5) Compare with standard_user header

Description:

When logged in with visual_user and opening the cart page, the header area looks different from what standard_user sees. The logo, cart icon or hamburger menu may be misaligned or have incorrect styling.

Screenshot / Attachments:

Expected Result: Header should look identical to standard_user. Logo, cart icon and hamburger menu should all be correctly positioned.

Actual Result: Header elements appear misaligned or styled differently compared to standard_user. Some icons may appear out of place.

Severity: Medium

Priority: Medium

#10

Title: 'Continue Shopping' and 'Checkout' buttons have wrong styling on cart page with visual_user

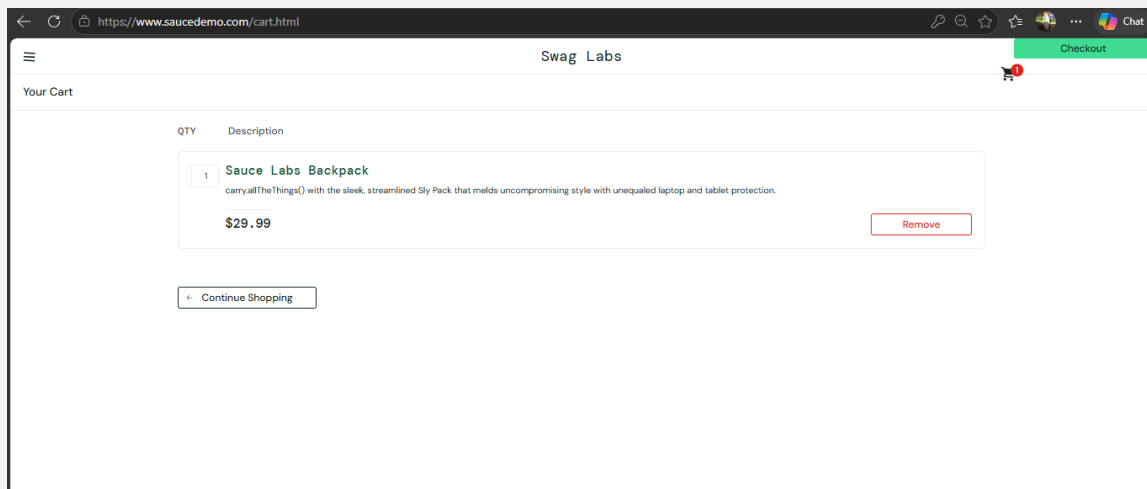

Steps:

- 1) Open <https://www.saucedemo.com>
- 2) Login with visual_user / secret_sauce
- 3) Add any product to cart
- 4) Open /cart.html
- 5) Observe the style and position of the Continue Shopping and Checkout buttons at the bottom

Description:

When logged in with visual_user and viewing the cart page, the 'Continue Shopping' and 'Checkout' buttons at the bottom of the page look visually different from standard_user. The button colors, sizes or positions may differ.

Screenshot / Attachments:

Expected Result: Both buttons should look and be positioned exactly the same as they appear with `standard_user`.

Actual Result: Buttons appear with different styling or positioning compared to `standard_user` view.

Severity: Medium

Priority: Medium

Checkout

(functional)

#1

Title: Last name field accepts numeric data without showing error.

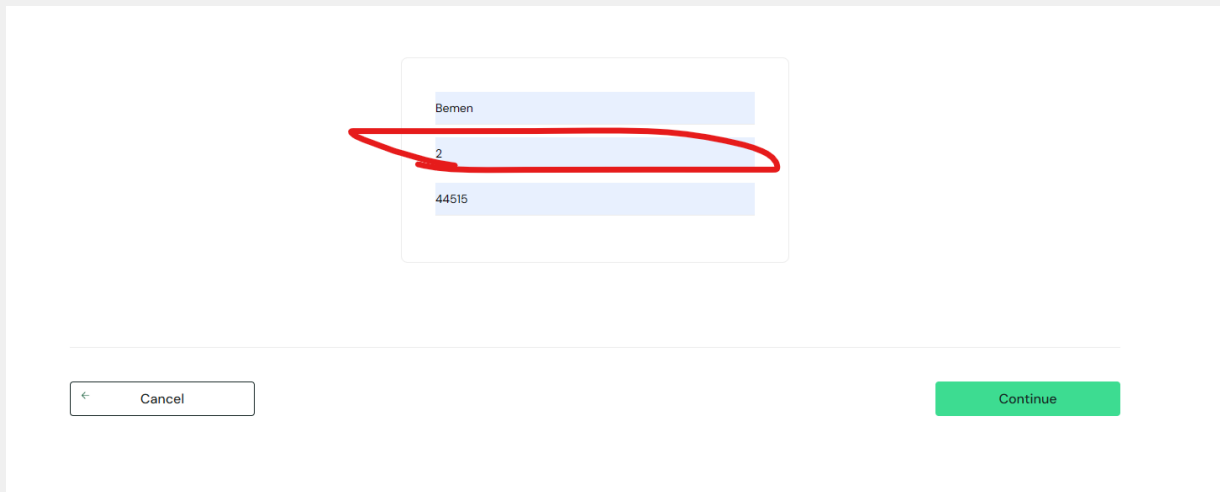

Steps:

- 1) open <https://www.saucedemo.com>
- 2) Add preferred items to cart
- 3) click cart icon
- 4) click on checkout
- 5) Enter First name as “Bemen”
- 6) Enter Last name as “2”
- 7) Enter postal code as “44515”

Description:

Entering a number inside the last name field should result in an error preventing checkout

Attachment:

The screenshot shows a checkout form with three input fields. The first field contains 'Bremen', the second field contains '2', and the third field contains '44515'. A red oval is drawn around the second field. Below the form are two buttons: 'Cancel' on the left and 'Continue' on the right.

Result:

Expected Result: Last name field shows error preventing checkout

Actual Result: Data gets accepted without showing error

Severity: High

Priority: High

#2

Title: First and Last name fields accept numeric data without showing error.

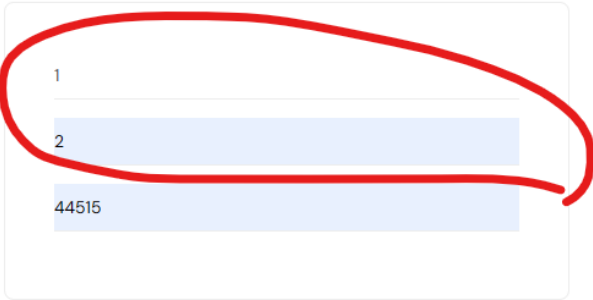

Steps:

- 1) open <https://www.saucedemo.com>
- 2) Add preferred items to cart
- 3) click cart icon
- 4) click on checkout
- 5) Enter First name as "1"
- 6) Enter Last name as "2"
- 7) Enter postal code as "44515"

Description:

Entering a number inside the last name and first name fields should result in an error preventing checkout

Attachment:

The screenshot shows a checkout form with three input fields. The first field is labeled '1', the second '2', and the third '44515'. A red circle is drawn around the first and second fields. Below the form is a green 'Continue' button.

Title: Postal code field accepts one number only .

Steps:

- 1) open <https://www.saucedemo.com>
- 2) Add preferred items to cart
- 3) click cart icon
- 4) click on checkout
- 5) Enter First name as “Bemen”

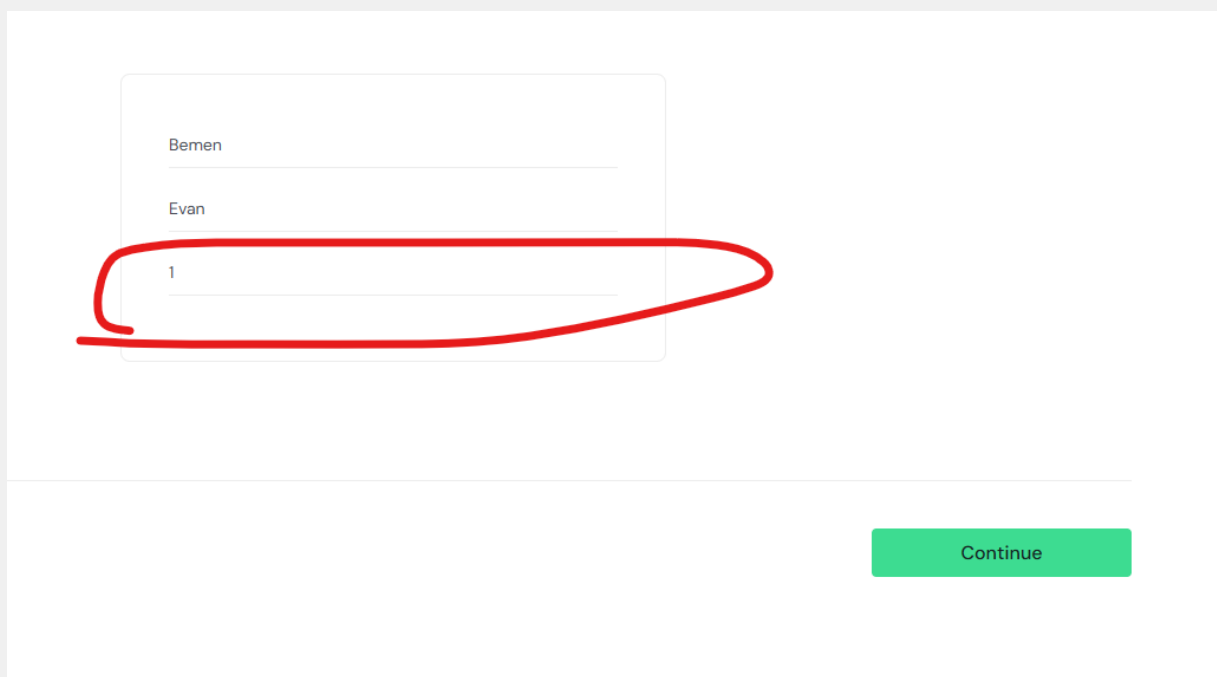

6) Enter Last name as “Evan”

7) Enter postal code as “1”

Description:

Entering one number only in Postal code field should result in an error as 1 number only is not a valid postal code

Attachment:

The screenshot shows a checkout form with three input fields. The first field is labeled 'Bemen' and contains the text 'Bemen'. The second field is labeled 'Evan' and contains the text 'Evan'. The third field is labeled '1' and contains the text '1'. A red circle is drawn around the third field. Below the form is a green button labeled 'Continue'.

Result:

Expected Result: Postal code field shows an error preventing checkout

Actual Result: Data gets accepted without showing error

Severity: High

Priority: High

#4

Title: Postal code field accepts characters without showing error.

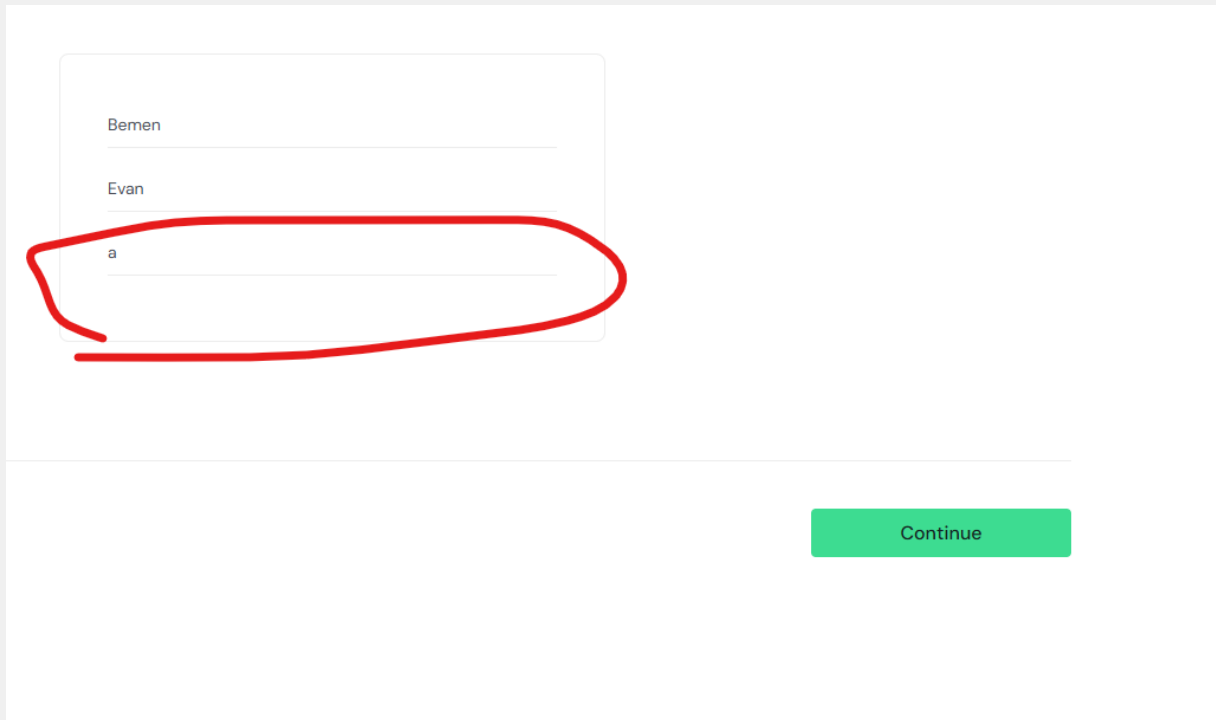

Steps:

- 1) open <https://www.saucedemo.com>
- 2) Add preferred items to cart
- 3) click cart icon
- 4) click on checkout
- 5) Enter First name as “Bemen”
- 6) Enter Last name as “Evan”
- 7) Enter postal code as “a”

Description:

Entering a character in Postal code field should result in an error as postal code can only be in numeric value

Attachment:

A screenshot of a checkout form. The form contains three input fields for names: 'Bemen', 'Evan', and 'a'. The 'a' field is circled in red. Below the form is a green 'Continue' button.

Result:

Expected Result: Postal code field shows an error preventing checkout

Actual Result: Data gets accepted without showing error

Severity: High

Priority: High

#5

Title: First name field accepts special characters without showing error

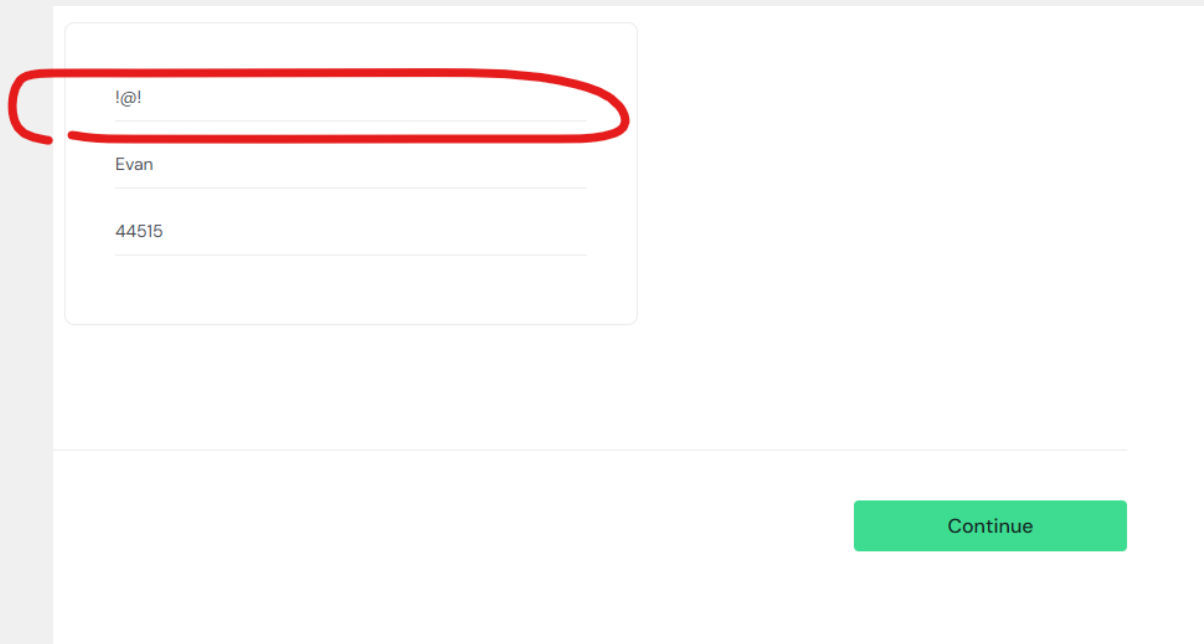

Steps:

- 1) open <https://www.saucedemo.com>**
- 2) Add preferred items to cart**
- 3) click cart icon**
- 4) click on checkout**
- 5) Enter First name as “!@!”**
- 6) Enter Last name as “Evan”**
- 7) Enter postal code as “44515”**

Description:

Entering special characters only in first name field should be resulting in an error preventing checkout

Attachment:

The screenshot shows a registration form with three input fields: email, first name, and a numeric code. The email field contains the text '!@!' and is circled in red. The first name field contains the text 'Evan'. The numeric code field contains the text '44515'. A green 'Continue' button is located at the bottom right of the form.

!@!
Evan
44515

Continue

Result:

Expected Result: First name field shows an error preventing checkout

Actual Result: Data gets accepted without showing error

Severity: High

Priority: High

Title: First and Last name fields accept special characters without showing error

Steps:

- 1) open <https://www.saucedemo.com>**
- 2) Add preferred items to cart**
- 3) click cart icon**
- 4) click on checkout**
- 5) Enter First name as “!@!”**
- 6) Enter Last name as “!@#”**
- 7) Enter postal code as “44515”**

Description:

Entering special characters only in first name and last name fields should be resulting in an error preventing checkout

Attachment:

A screenshot of a checkout form. The form contains three input fields: the first is labeled 'First Name' with a placeholder '!', the second is labeled 'Last Name' with a placeholder '!', and the third is labeled 'Phone Number' with a placeholder '44515'. A red oval is drawn around the first and second input fields. Below the form is a green 'Continue' button.

Result:

Expected Result: First name and last name fields show an error preventing checkout

Actual Result: Data gets accepted without showing error

Severity: High

Priority: High

Title: All fields accept special characters without showing error

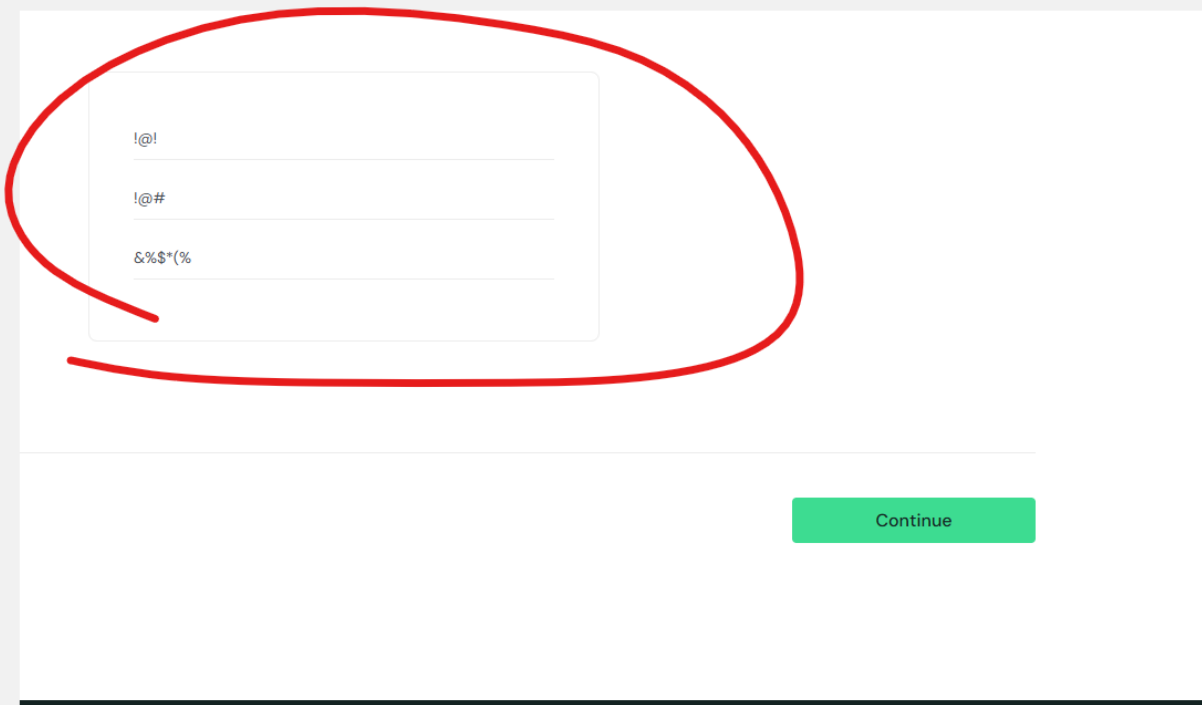

Steps:

- 1) open <https://www.saucedemo.com>**
- 2) Add preferred items to cart**
- 3) click cart icon**
- 4) click on checkout**
- 5) Enter First name as “!@!”**
- 6) Enter Last name as “!@#”**
- 7) Enter postal code as “&%\$*(%”**

Description:

Entering special characters only in all fields should result in errors preventing checkout

Attachment:

A screenshot of a checkout form. A red circle highlights the input fields. The first field contains "!!", the second field contains "!!#", and the third field contains "&%\$*(%". Below the input fields is a green "Continue" button.

Result:

Expected Result: all fields show errors preventing checkout

Actual Result: Data gets accepted without showing error

Severity: High

Priority: High

Title: First name field accepts data as spaces

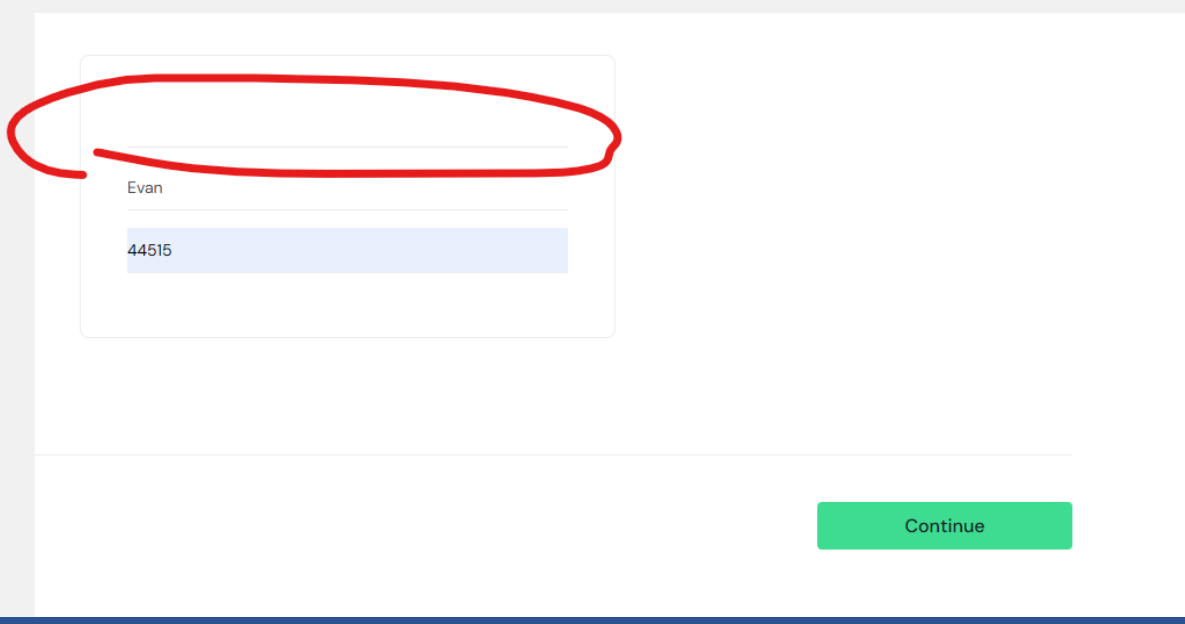

Steps:

- 1) open <https://www.saucedemo.com>
- 2) Add preferred items to cart
- 3) click cart icon
- 4) click on checkout
- 5) Enter First name as " "
- 6) Enter Last name as "Evan"
- 7) Enter postal code as "44515"

Description:

Entering spaces in first name field should be rejected and result in an error preventing checkout, however data gets accepted without showing error as spaces which is a high bug

Attachment:

The screenshot shows a checkout form with three input fields. The first field, labeled 'First name', is circled in red and contains a single space character. The second field, labeled 'Last name', contains the text 'Evan'. The third field, labeled 'Postal code', contains the text '44515'. A green 'Continue' button is located at the bottom right of the form.

Result:

Expected Result: First name field shows an error preventing checkout

Actual Result: Data gets accepted without showing error

Severity: High

Priority: High

#8

Title: First and Last name fields accept spaces without showing error

Steps:

- 1) open <https://www.saucedemo.com>**
- 2) Add preferred items to cart**
- 3) click cart icon**
- 4) click on checkout**
- 5) Enter First name as " "**

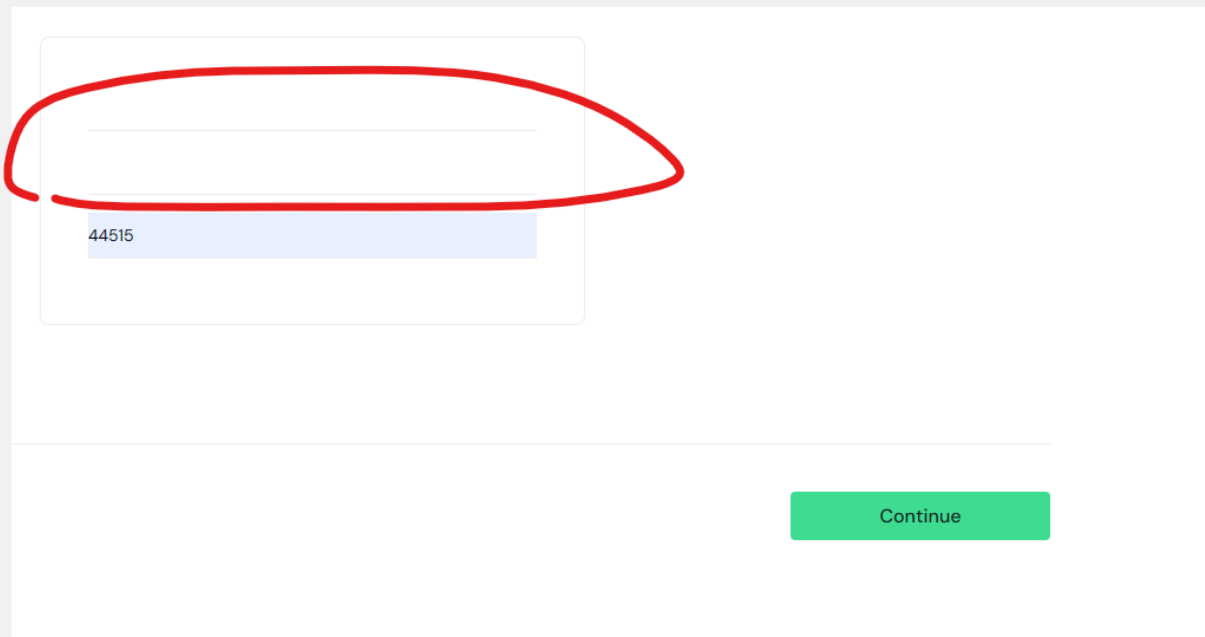

6) Enter Last name as “ ”

7) Enter postal code as “44515”

Description:

Entering spaces in first name and last name fields should be rejected and result in an error preventing checkout, however data gets accepted without showing error as spaces which is a high bug

Attachment:

A screenshot of a checkout form. The form has two input fields for 'First Name' and 'Last Name' at the top, followed by a 'Postal Code' field containing '44515'. A red oval is drawn around the 'First Name' and 'Last Name' fields. Below the form is a green 'Continue' button.

Result:

Expected Result: First name and last name fields show an error preventing checkout

Actual Result: Data gets accepted without showing error

Severity: High

Priority: High

#9

Title: Entering spaces in all fields won't show an error

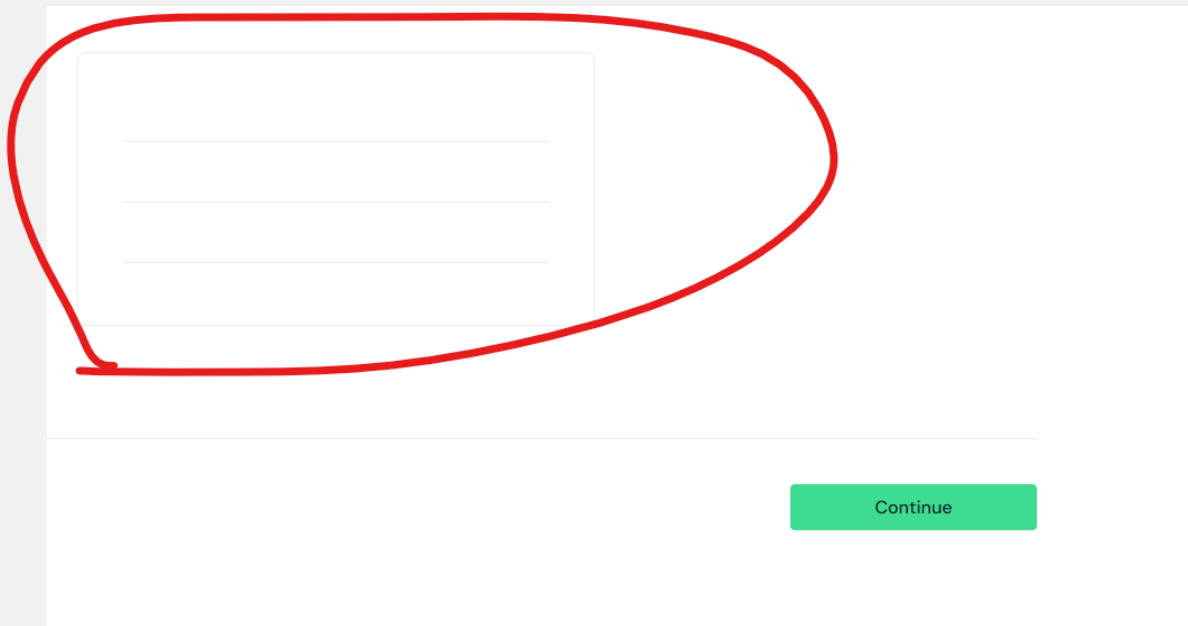

Steps:

- 1) open <https://www.saucedemo.com>**
- 2) Add preferred items to cart**
- 3) click cart icon**
- 4) click on checkout**
- 5) Enter First name as " "**
- 6) Enter Last name as " "**
- 7) Enter postal code as " "**

Description:

Entering spaces in all fields should be rejected and result in an error preventing checkout, however data gets accepted without showing error as spaces which is a high bug

Attachment:

A screenshot of a checkout form. The form is white and contains several input fields. A red circle is drawn around the input fields, highlighting them. Below the input fields is a green button labeled "Continue".

Result:

Expected Result: all fields show errors preventing checkout

Actual Result: Data gets accepted without showing error

Severity: High

Priority: High

#10

Title: First name field can contain only 1 character without showing error

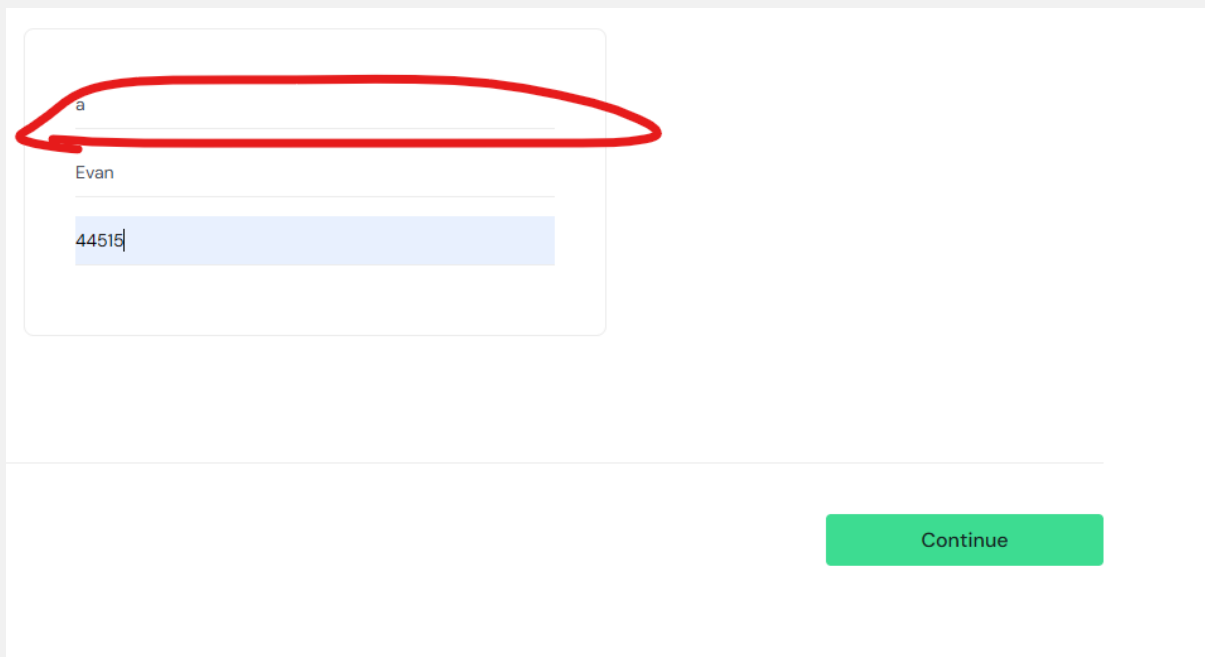

Steps:

- 1) open <https://www.saucedemo.com>**
- 2) Add preferred items to cart**
- 3) click cart icon**
- 4) click on checkout**
- 5) Enter First name as “a”**
- 6) Enter Last name as “Evan”**
- 7) Enter postal code as “44515”**

Description:

Entering one character only in first name field should result in an error as names consist of more than 3 characters usually

Attachment:

The screenshot shows a checkout form with three input fields. The first field, labeled 'First name', contains the text 'a' and is highlighted with a red oval. The second field, labeled 'Last name', contains the text 'Evan'. The third field, labeled 'Card number', contains the text '44515'. A green 'Continue' button is located at the bottom right of the form.

Result:

Expected Result: First name field shows an error preventing checkout

Actual Result: Data gets accepted without showing error

Severity: High

Priority: High

Title: First and Last name fields can contain only 1 character without showing error

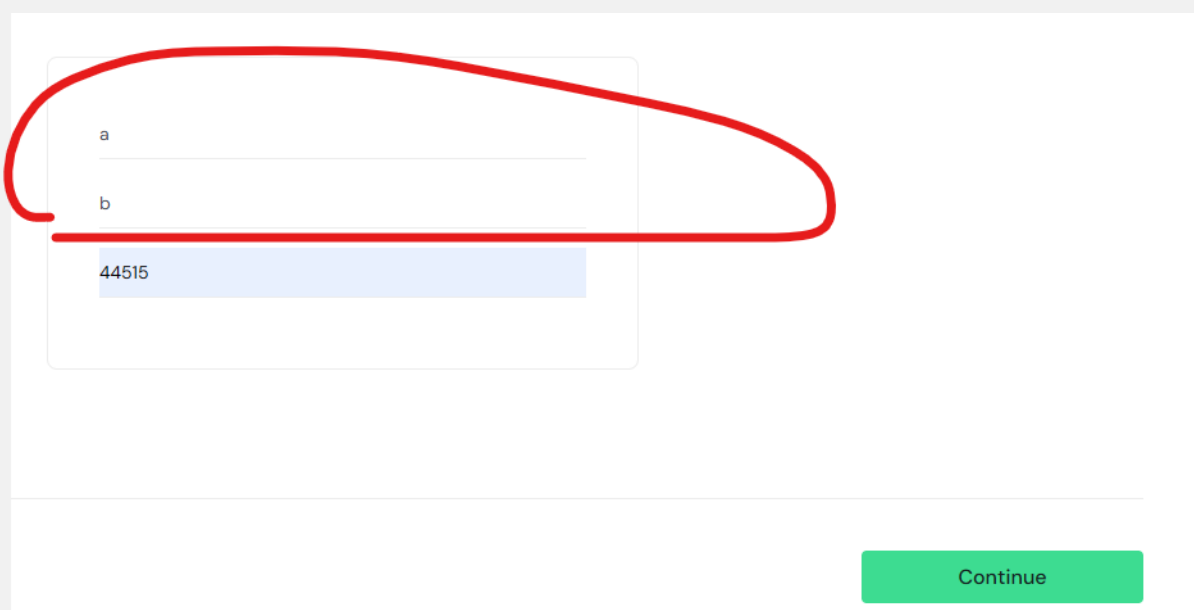

Steps:

- 1) open <https://www.saucedemo.com>**
- 2) Add preferred items to cart**
- 3) click cart icon**
- 4) click on checkout**
- 5) Enter First name as “a”**
- 6) Enter Last name as “b”**

checkout (UI)

#1

Title: Last name field isn't functional

Steps:

- 1) open <https://www.saucedemo.com>**
- 2) Add preferred items to cart**
- 3) click cart icon**
- 4) click on checkout**
- 5) Enter First name as "Bemen"**
- 6) Enter Last name as "Evan"**
- 7) Enter postal code as "44515"**
- 8) Click Continue**
- 9) Check if icons and fields are aligning correctly**
- 10) use Problem_User or error_user as username**

Description:

When trying to enter any data inside Last name field it gets rejected without showing any errors

Attachment:

A screenshot of a checkout form. The form contains three text input fields. The first field contains the number '12'. The second field is labeled 'Last Name' and is circled in red. The third field contains the number '1'. Below the form is a green button labeled 'Continue'.

Result:

Expected Result: All text fields are functional

Actual Result: Last name field can't be edited at all and checkout process accepts the empty field of last name

Severity: High

Priority: High

#2

Title: Cart icon is broken

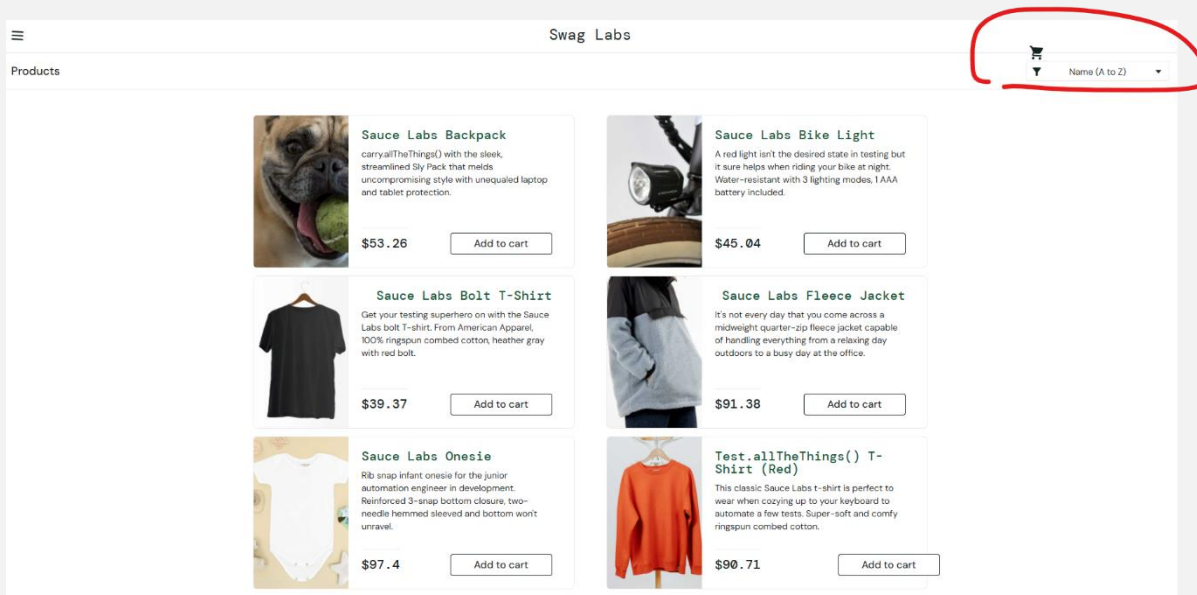

Steps:

- 1) open <https://www.saucedemo.com>**
- 2) Add preferred items to cart**
- 3) click cart icon**
- 4) click on checkout**
- 5) Enter First name as “Bemen”**
- 6) Enter Last name as “Evan”**
- 7) Enter postal code as “44515”**
- 8) Click Continue**
- 9) Check if icons and fields are aligning correctly**
- 10) use visual_user as username**

Description:

Cart icon is completely mismatched as it's leaning towards the sort item button and leaning bottom-right and not straight like it should be

Attachment:

Result:

Expected Result: Cart icon should be placed on the top right corner fixed upright

Actual Result: Cart icon looks tilted into the sorting box which looks very dissatisfying

Severity: High

Priority: High

#3

Title: Items change when inspected

Steps:

- 1) open <https://www.saucedemo.com>**
- 2) Add preferred items to cart**
- 3) click cart icon**
- 4) click on checkout**
- 5) Enter First name as “Bemen”**
- 6) Enter Last name as “Evan”**
- 7) Enter postal code as “44515”**
- 8) Click Continue**
- 9) Check if icons and fields are aligning correctly**
- 10) use visual_user as username**

Description:

When you click to view an item fully the picture changes and the price as well

Logout

#1

Title: System logs out the user instead of showing an error when internet is off

Steps:

- 1) Go to <https://www.saucedemo.com>
- 2) Login to the website
- 3) Turn off the internet
- 4) Open the sidebar menu
- 5) click on the logout link

Description:

The system does not follow the requirements. When the internet is off, the user should stay on the page and see an error message. Instead, the system logs the user out and goes to the login page. This is wrong because there is no internet to close the session

Screenshot /Attachment

WhatsApp Video 2026-04-25 at 11.16.36 PM.mp4

Result:

Expected Result:

The user should stay on the current page and see a "No internet" error message

Actual Result:

The system logs out the user and redirects to the login page without any error message

Severity: High

Priority: High

#2

Title: Logging out takes too much time when using performance_glitch_user account

Steps:

- 1) Go to <https://www.saucedemo.com>
- 2) Login with username "performance_glitch_user"
- 3) Click on the menu icon
- 4) Click on the Logout link

Description:

When I try to log out using the "performance_glitch_user", the website becomes very slow. The user has to wait for a long time before the login page appears. This delay only happens with this specific user

Screenshot /Attachment

WhatsApp Video 2026-04-26 at 12.52.24 AM.mp4

Result

Expected result

The logout process should be fast and happen immediately without any waiting time

Actual result

The system takes several seconds to log out and the screen stays frozen for a while

Severity: medium

Priority: medium

#3

Title: Menu items text is blurry and misplaced for visual_user

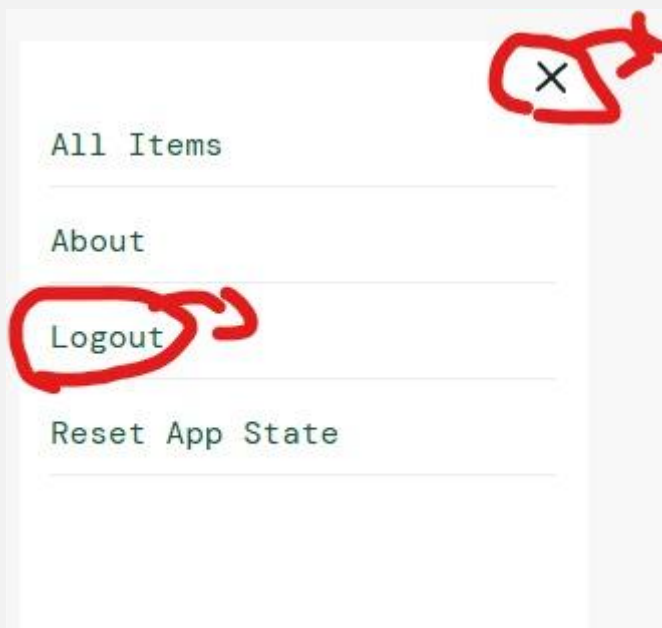

Steps:

- 1) Go to <https://www.saucedemo.com>
- 2) Login with username "visual_user"
- 3) Click on the sidebar menu icon
- 4) Look at the menu items text (Logout, About, All Items)

Description

When logging in with the "visual_user", the text for the menu items looks very blurry and is not clear to read. Also, the text is not placed correctly in the menu. This makes the menu look broken and unprofessional

Screenshot /Attachment

Result:

Expected result

All menu items text should be sharp, clear, and placed correctly in the list

Actual result

The menu text is blurry and shifted from its correct position

Severity: Medium

Priority: medium

#4

Title: Sidebar icons are shifted and not in place for visual_user

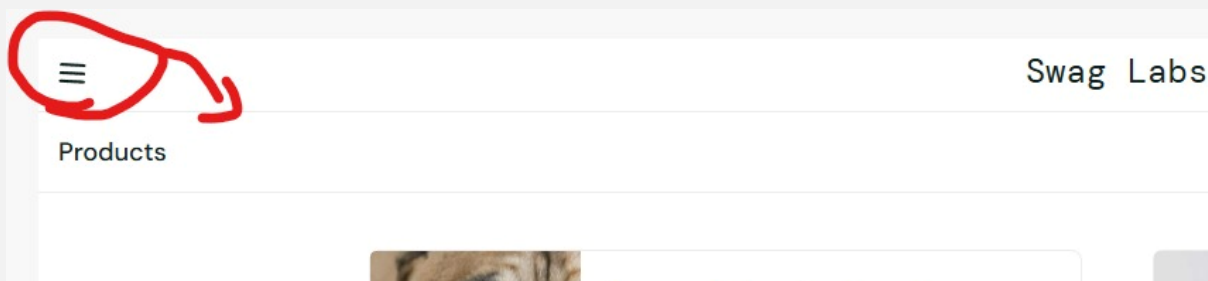

Steps:

- 1) Go to <https://www.saucedemo.com>
- 2) Login with username "visual_user"
- 3) Click on the sidebar menu icon
- 4) Observe the positions of the icons next to the text

Description:

The icons in the sidebar menu are not aligned correctly. They are shifted from their original places and do not match the text next to them. This layout issue only happens with the "visual_user" account

Screenshot /Attachment

Result

Expected result

All icons should be placed correctly and aligned perfectly in their spots

Actual result

The icons are misplaced and look messy in the sidebar

Severity: Medium

Priority: medium
